PROFESSIONAL EXPERIENCE

Freelance Fievrr Mobile App Developer

REMOTE | JAN 2021 – PRESENT

- Developed and deployed 10+ mobile applications for clients across various industries including delivery, event management, booking, and internal enterprise tools.
- Specialized in building cross-platform apps using React Native, Expo, and Firebase with optimized performance and responsive UIs.
- Integrated real-time features like chat, push notifications, and geolocation.
- Delivered customized admin panels and APIs using Node.js, Express, and Supabase.
- Collaborated with startups and small businesses to translate ideas into functional and scalable mobile products.
- Ensured smooth App Store & Google Play deployment with versioning, OTA updates, and crash monitoring.

Developement of Calliverse App

APRIL 2025 - JUNE 2025

Calliverse Social Media App - Developed a full-featured social networking mobile application using React Native and TypeScript for $1,500 budget. Implemented real-time messaging, video calling, content sharing, premium subscriptions, and AI integration. Utilized Supabase for backend services, WebRTC for communications, and Stripe for payments, delivering a production-ready cross-platform solution.

Developement of Blink Delivery (Grocery App $2000)

APRIL 2025 - MAY 2025

React Native, TypeScript, Firebase, Stripe, REST APIs

Built a cross-platform grocery app with real-time product catalog, user authentication, multi-address delivery, Stripe payments, push notifications, and order tracking. Included coupon management, offline support (AsyncStorage), error handling, and production-ready deployment to iOS/Android.
